

SNSF Starting Grants: Zusprachen UZH des Calls 2022

Name	Vorname	Gastinstitut (Fakultät)	Projekttitle
Ambuehl	Sandro	Department of Economics (WWF)	Positive Welfare Economics
Brugger	Silvio	Klinik für Infektionskrankheiten und Spitalhygiene (MeF, USZ)	Microbiota engineering for respiratory health - novel treatment and prevention strategies against pathogens
Bzdušek	Tomáš	Physik-Institut (MNF)	New paradigms for topological matter: delicate, multi-gap, hyperbolic
Camara Leret	Rodrigo	Institut für Systematische und Evolutionäre Botanik (MNF)	INDIGENOMICS
Domcke	Silvia	Institut für Molekulare Biologie (MNF)	Transcription factor dynamics and occupancy in development
Payvad	Melika	Institut für Neuroinformatik (MNF)	UNITE: Brain-inspired device-circuits-algorithm co-design for resource-constrained hardware on the edge
Scheidecker	Gabriel	Institut für Sozialanthropologie und emp. Kulturwissenschaft (PhF)	Saving Brains? Applying Ethnography to Early Childhood Interventions in the Global South
van Loon	Mariëtte	Psychologisches Institut (PhF)	Development of Adolescents' Metacognitive Control: Effects of Individual and Social Factors on Short-Term Fluctuations and Long-Term Development
Zoller	Max	Physik-Institut (MNF) und Paul Scherrer Institut	High-precision scattering amplitudes for the LHC and lepton colliders from automated NNLO calculations
